## EDITOR'S NOTE

We are happy to share the 2023 Spring issue (issue 46) of our Journal Of Modern Turkish History Studies with the scientific world. In this issue of our magazine, which will continue to be published only in electronic environment with this issue, we have included subjects that will shed light on local history studies, especially in our city of Izmir. In addition, in this issue, we bring together valuable researches about the last periods of the Ottoman Empire, the years of the National Struggle and various periods and subjects of our Republic history.

The articles in this issue have been included in the evaluation and publication processes based on their arrival dates. The studies, which were included in the plagiarism screening programs before the peer-review process, were examined by at least two referees who were experts on the research subject by applying blind refereeing. I would like to thank our valuable scientists who contributed to the meeting of this issue with the scientific world as a referee and share their work with us, as well as those who contributed to the publication process of our journal, and wish you a pleasant reading.
